PROFESSIONAL EXPERIENCE

Senior iOS Developer — MindInventory Pvt. Ltd.

Jul 2018 – Present (serving notice until Oct 2026)

- Delivered and maintained large-scale iOS applications for international clients across gaming, food delivery, CRM, healthcare, and educational products; integrated payments, wallets, notifications, analytics, maps, and third-party SDKs.
- Optimized app performance and memory usage using Instruments and profiling tools, improving app stability, launch times, and responsiveness across products.
- Consistently shipped 30+ applications through successful App Store submissions and reviews, maintaining compliance with App Store guidelines across all releases.
- Conducted code reviews and mentored junior iOS developers, ensuring code quality, architecture consistency, and adherence to best practices.
- Collaborated in Agile/Scrum teams — sprint planning, code reviews, and CI/CD-driven build and release pipelines (Fastlane) to ship high-quality updates on schedule.
- Built and delivered 2 cross-platform Flutter applications alongside native iOS work, extending delivery capability across Flutter and Swift/SwiftUI stacks.
